For immediate placement, we are currently looking for a

Research scientist for operational studies in the field of **energetic nanomaterials (m/f/d)**

Your new tasks and responsibilities – challenging and future-oriented

- ◆ Elaboration of energetic nanomaterials (pure and composite explosives)
- ◆ Elaboration of reactive prototypes
- ◆ Research work in collaboration with other scientific groups of ISL

Your qualifications – solid and appropriate

- ◆ Hold a PhD in physics and chemistry of nanomaterials
- ◆ A first work experience is not required but will be considered as an advantage
- ◆ You do high-quality research work and are willing to take on research management tasks
- ◆ Good communication skills: You like to work in a team, take initiatives, are a good organizer adapting easily to new situations
- ◆ Very good command of English. A good command of French and/or German would be an advantage

Our offer

- ◆ Fixed-term contract of 5 years, possibility of conversion to permanent contract
- ◆ Attractive remuneration, flexible working time and balanced working-private life
- ◆ Various possibilities of advanced training
- ◆ An international and modern working environment with about 400 colleagues
- ◆ Career development opportunities
- ◆ The position is open to people with disabilities

If this challenging description fits your profile, we are looking forward to receiving your complete application (letter of motivation, curriculum vitae in tabular form, school certificates, university degrees with detailed examinations, work references and other relevant documents), mentioning the following keyword: “PCN-S”.
